CAREER

Motivated and detail-oriented Data Science student with strong skills in Python, SQL, AI ML seeking an entry-level position to apply analytical and problem-solving abilities in real-world projects. Eager to transform data into actionable insights and contribute to data-driven decision-making in a dynamic organization.

EDUCATION

LDRP-ITR, Gandhinagar

Bachelors in Engineering (Information Technology) - CGPA - 8.48

2022 – 2026

Gandhinagar

Knowledge High School Nadiad

HSC - Percentage - 65%

2020 – 2022

Nadiad

TECHNICAL SKILLS

Languages: Python

Data Analysis Tools: MS EXCEL, Power BI

AI/ML Machine Learning, Data Preprocessing, Basic Algorithms (Regression, Classification)

Databases: SQL

Developer Tools: VS Code

PROJECTS

1. WanderWay | Technologies Used: React, Node.js, MySQL, JavaScript

Aug 2025

- Built a tourism management platform for trip planning, destination search, and online booking management.
- Integrated real-time travel information, personalized recommendations, and eco-tourism features for better user experience.

2. ExpenseMate | Technologies Used: Android Studio, Java, XML

Mar 2026

- Developed an Android-based expense management application to track daily income and expenses efficiently.
- Implemented features like transaction categorization, expense summaries, report generation, and balance calculation.
- Used Firebase and SQLite for secure data storage with a simple and user-friendly mobile interface.

INTERNSHIP

Shambhavi Technovation

JUL 2025 – AUG 2025

Frontend Intern

Ahmedabad, Gujarat

- Completed hands-on training as a Frontend Developer using AngularJS, Bootstrap, and Node.js.
- Developed responsive and user-friendly interfaces following modern UI/UX practices.
- Integrated frontend components with backend services for dynamic data handling.
- Worked on real-world web application features while following industry best practices.

CERTIFICATIONS

NPTEL

JUL-2024 – AUG 2024

Python with Data science

Online

- Completed an NPTEL-certified course covering Python programming fundamentals, data analysis, and data visualization. Gained hands-on experience with libraries like NumPy, Pandas to analyze and interpret real-world datasets

Tata Group Data Analytics Job Simulation – Tata Group (via Forage)

MAR-2026

Data Analytics, GenAI, EDA

Virtual

- Completed an AI-powered data analytics simulation, performing EDA with GenAI tools to identify risk indicators for customer delinquency and proposing an ethical AI-driven collections strategy with a no-code predictive risk assessment framework
